Dr. Anne Marie SuPrise  
Deputy Director, Best Manufacturing Practices  
Center of Excellence  
4321 Hartwick Road, Suite 400  
College Park, Maryland 20740

Dear Dr. SuPrise:

On behalf of the students and faculty of the Industrial College of the Armed Forces, thank you for your outstanding presentation to the students in our Advanced Manufacturing Industry Study seminar.

Your presentation provided an excellent overview of the Navy's Best Manufacturing Practice Program. It was of great interest to the students to learn the extent to which best practices are being shared by industry and the government's role in the process. Your information has broadened the students' view of manufacturers and will be most helpful to them both in their study of advanced manufacturing and their future assignments. We are grateful to you for sharing your knowledge with us.

Thank you for your support of our academic program.

Sincerely,

Richard L. Engel  
Major General, USAF  
Commandant
